WE ARE YOUR

One Trusted Source.

At Brampton Brick, we challenge ourselves to see things through our customers' eyes. We focus on processes that make a positive impact from production, right through to the end-user. We aim to simplify.

Through talking less and listening more, valuable customer feedback forms the basis of our masonry and landscape product development, and guides us every step of the way.

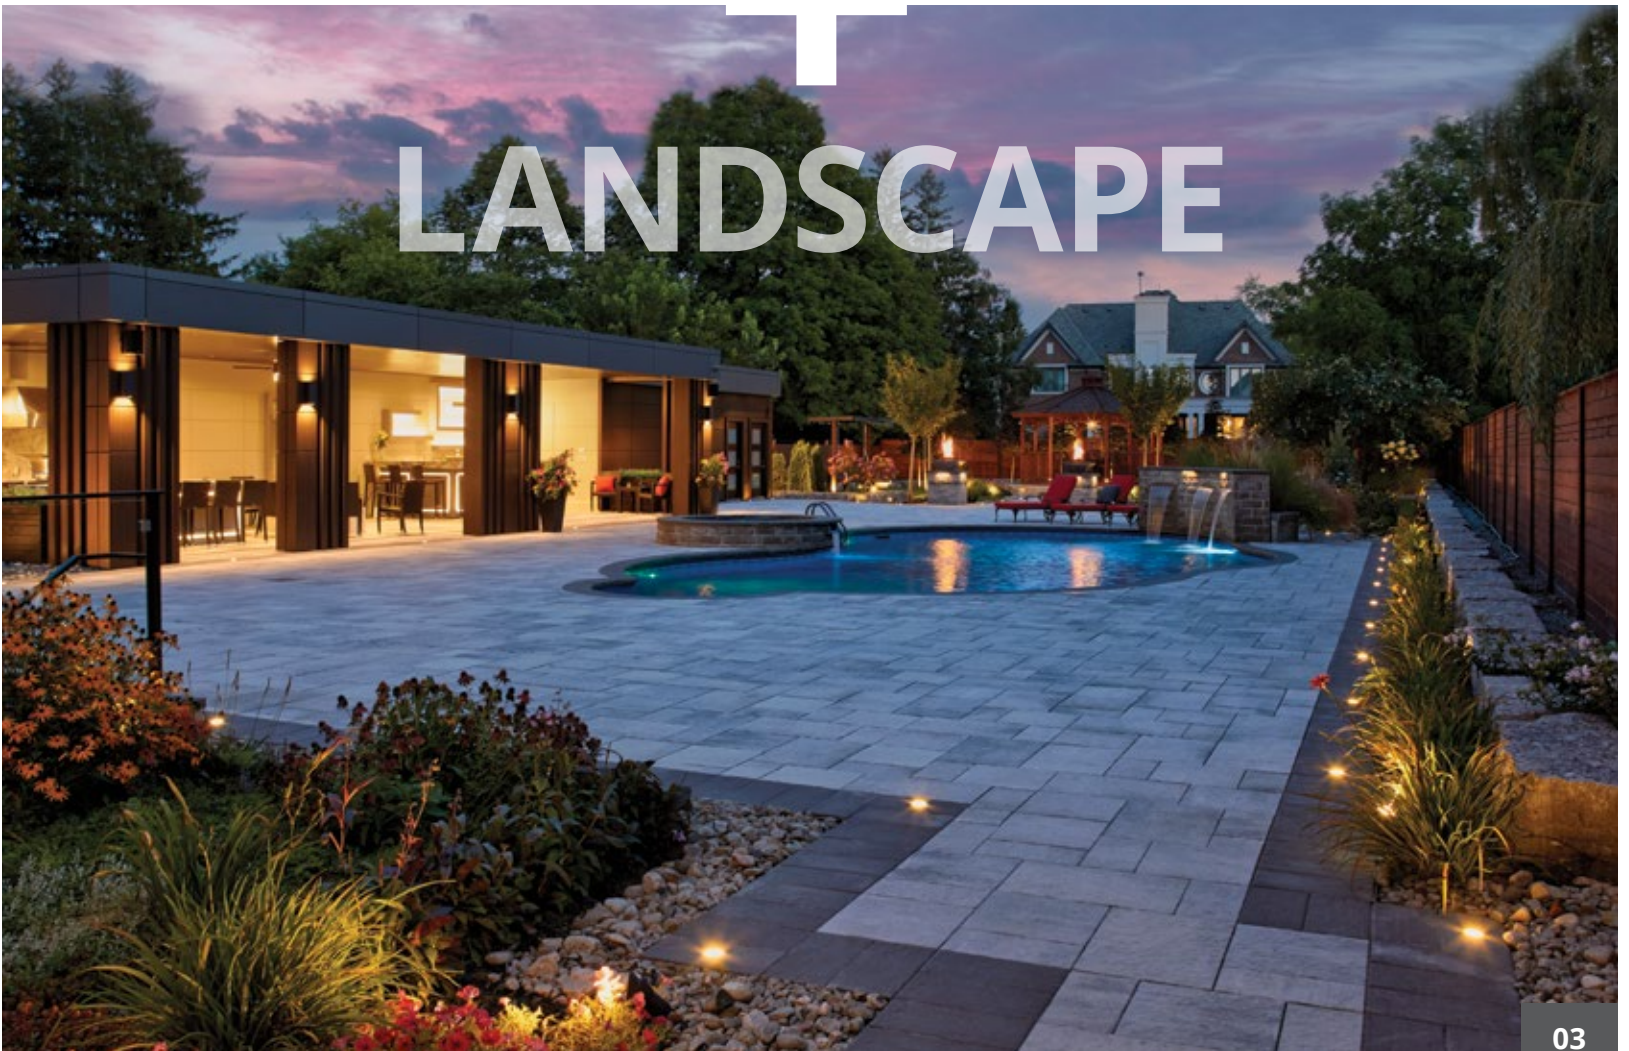

Our customers have told us that they need a trusted, single source for high-quality, durable, attractive, and unified product lines. They need a continuous harmony of textures, colours, and modular sizes that make designing perfectly coordinated living and commercial spaces easy. Brampton Brick Limited, collectively, Brampton Brick and Oaks Landscape Products (Oaks) brands; has forged a reputation as an integrated masonry and landscape products manufacturer. It's the trust our customers place in us that keeps us focused on our goals: To be that single source for quality, durability and long-lasting style, and to lead the way in innovation, affordability and lifetime satisfaction.

Thank you for making us your **ONE Trusted Source.**

MASONRY

LANDSCAPE

INTRODUCTION

Less is more.

While products are an important part of what forms the backbone of our company, we like to think it's less about products, and more about people. More about our customers, their needs, ambitions, and goals. More about our employees, their well-being, and their dedication to our customers.

As we look back over the last few years at the many re-alignments of resources that have enabled us to work smarter together, we know that less really is more. Less time spent working *harder* developing new products; and more time spent working *smarter* on innovative ways to incorporate the most popular colours and textures across both masonry and landscape product lines, is moving us all toward a more cohesive experience.

As we look forward, we remain committed to doing more, and doing better; in ways that will help all of our people do the same. We are committed to more progress, more education, more service, more communication, with less friction, stress, and guesswork. I want to take this opportunity to thank all of you for being a part of our journey.

MANUFACTURING EXCELLENCE & QUALITY

Our commitment.

Through thick and thin, our company is constantly evolving. We've expanded our manufacturing many times over the years, most recently at our Brampton concrete products plant. This expansion gives us the capacity to produce both masonry and landscape products, as an integrated masonry and landscape products manufacturer and a single source for quality, durability and long-lasting style.

Your trust keeps us focused on our goal, and motivates us to strive to do more, to do better, to evolve along with the needs of our clients and industry trends. From our state-of-the-art production facilities to quality control, distribution and customer service, we ensure our products are made to last.

Thank you for making us your **ONE Trusted Source**.

ONE TRUSTED SOURCE

For over 150 years.

1871

First plant built under the name of Packham Brick,
located in Brampton, Ontario – Canada.

1905

Incorporated as Brampton Pressed Brick Company Ltd.
Production capacity at 2 million brick/year.

1960

Extrusion technology replaces pressed brick equipment
and output soars to 26 million brick/year.

2001

Adding a new production line increases capacity to
300 million brick/year, making Brampton Brick the
single largest North American clay brick manufacturer
under one roof.

2006

The acquisition of Peel Block in Brampton, ON facilitates
Brampton Brick's entry into concrete block manufacturing.

2014

Acquisition of Atlas Block Assets in Hillsdale, ON
and Brockville, ON. Expanded geographic footprint
and additional concrete masonry and landscape
production capacity.

2019

Acquisition of Boehmers Block in Cambridge, ON,
expands concrete block manufacturing capacity.

1949

Brampton Pressed Brick was purchased from the
Packham family and re-named Brampton Brick Limited.
Output triples to 6 million brick/year.

1986

Public IPO and facility improvements increase
capacity to 200 million brick/year.

2002

The acquisition of Oaks Concrete Products Canadian
and US operations introduce landscape product
manufacturing to the product roster.

2009

Farmersburg, IN, plant commissioned, adding
a further 100 million brick/year to our capacity.

2016

Acquisition of Eurobloc assets in Boisbriand, QC
provides Eastern Region sales and distribution terminal.

2022

Facility upgrades to Brampton concrete products plant
brings production of all concrete masonry products to
the same site as clay brick manufacturing.

Planning & Inspiration

In the following pages, we invite you to explore our product collections; considering colour, scale and texture, you can start planning your dream exterior with products developed to coordinate beautifully.

PERFECTLY CURATED

Collections

Discover new inspiration through our distinguished collections, where you'll find a selection of recommended products, carefully curated into the best possible product arrangements based on our **5 axes of design**.

Choose products from the same collection for a unified look, or mix and match by combining products across different collections for design themes and accents based on your own unique style and preferences.

THE 5 AXES OF Design

1

Simplicity

Our product design process begins with simplicity;

A well-conceived lack of complexity that makes our masonry and landscape collections easier to design, quote, and install your most beautiful project vision every time.

2

Modularity

The sizes and scale of our products were developed for mixing and matching different products within each collection for a completely coordinated look. Each individually distinct unit in our product lines aids in building a continuous function.

3

Continuity

Every successful home plan pivots around continuity. The unity between form and function, front and back yards, between horizontal and vertical surfaces, and even from masonry to landscape is what truly pulls an outdoor design theme together.

4

Unity

Our masonry and landscape products are designed for use together in unison. The continuity, affinity of colours, textures, surface finishes, product sizes and scale within our product collections allow various options for combining all these parts into a unified vision where all the elements of your outdoor design fit together.

5

Artistry

Our fifth axis of design is about you.

The preceding four axes provide all the ingredients for enhancing your creativity in any project: versatility in product size, shape, scale, and colour for an optimum product offering.

The true artistry is in selecting and utilizing products from our various collections to express your creativity.

Nueva® Collection ▶

DESIGN CONSIDERATIONS

Scale & Texture

When choosing brick and stone for your home's exterior, consider what styles you're drawn to, your setting, and the overall look and feel you want to achieve.

No matter what your goal is, the colours, textures, sizes, shapes, and patterns in our product collections give you the freedom to explore based on your own personal taste.

BRICK SCALE ▶

Scale should be considered when choosing a brick. Whether you want a more traditional, modern, or industrial look, there is a brick size to suit your design aesthetic from Modular to Metric Jumbo.

◀ STONE SCALE

When selecting stone masonry for the exterior of your home, consider the size and scale of the stones in the entire bundle. A mix of large and small stones gives variety and shows more patterning, whereas similar shapes display a more uniform or simple look. Larger single-sized shapes deliver a grand, traditional aesthetic, while longer, slimmer stones provide a more modern look.

EMBOSSSED TEXTURE

Added visual appeal and a more natural texture make this a popular choice for exterior masonry veneer.

EMBOSSSED BRICK PRODUCTS:
Crossroads Series, Legacy Series,
Vivace (PRP)

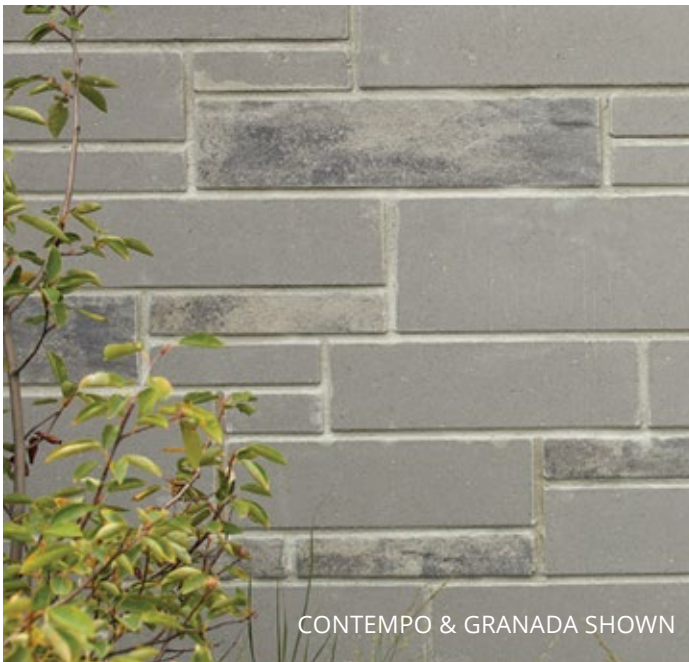

EMBOSSSED STONE PRODUCTS:
Artiste 2, Granada, Vivace

SMOOTH TEXTURE

The even surface of the smooth texture is attractive and gentle to the touch, but retains the durability you would expect.

SMOOTH BRICK PRODUCTS:
Contempo (PRP & MNO), Contemporary Series, Dorset

SMOOTH STONE PRODUCTS:
Bonneville, Contempo, Preston

MIX & MATCH

Combine embossed and smooth textures for a truly unique look.

Although we go to great lengths to ensure that the product and colour representations shown in our product guides and on our website are as accurate as possible, there are always variations in printing processes and monitors that will affect the outcome. Colour tones of the delivered product can also vary from the representations, between separately manufactured product sizes, or even between runs of the same product, especially with monochromatic (single solid) colours. This is due to variations in the raw materials and the manufacturing process itself, and is not a sign of defective product. Always select from current, physical product samples.

CHOOSING A PALETTE

Warm Colours

Containing red, orange, brown, tan and buff hues, warm palettes often are attributed to earth tones. Choose warm palettes to create a welcoming environment that compliments colours found in nature.

CHOOSING A PALETTE

Cool Colours

Cool palettes are typically comprised of blue, green and violet hues. However, in masonry they can be black, gray, burgundy and taupe, as it is their undertones that are cool. Mix and match our cool colours to create a modern and striking or stately and luxurious palette.

CHOOSING A PALETTE

Neutral Colours

A mixture of warm and cool tones, these colours run the full gamut in terms of versatility. Neutrals often have a mix of tones which can help add depth and texture to your design and are well-complimented by solid-colour accents.

COORDINATING MASONRY WITH

Oaks Landscape Products

Your outdoor environment plays an important part in completing your living space.

Guided by the 5 axes of design, our Oaks Landscape Products are developed to help simplify your choices for continuity of an overall aesthetic and function. Modular product size and scale, colours, textures, and surface finishes harmonize well with our brick and stone products to unify your design, for a home you'll be proud of for years to come.

Shown here are a few examples of combinations to inspire your own creative vision.

Example 1 ▶

Masonry colours and textures are mirrored in Oaks' Rialto Collection of products and well-complemented by the more rugged texture of Oaks Legacy Collection of landscape products.

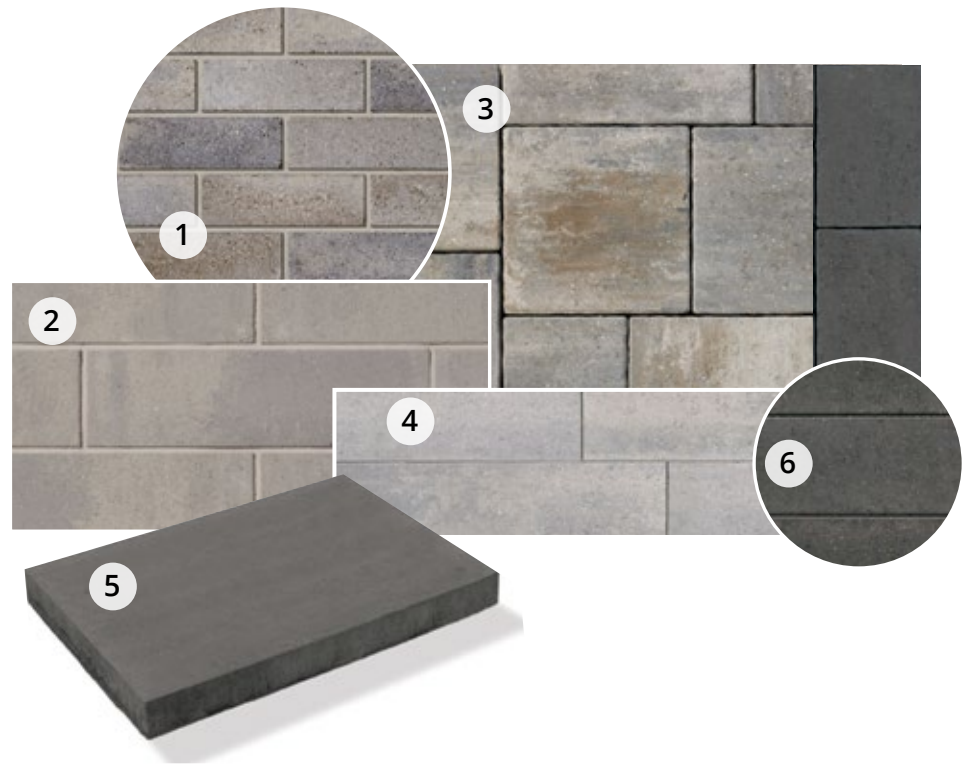

- 1) Brick:** Vivace (PRP), Cortona
- 2) Stone:** Artiste 2, Champagne
- 3) Paver:** Ridgefield Plus, Executive with Ridgefield Smooth, Onyx border
- 4) Wall:** Gardenia Linear, Sandstone
- 5) Step:** Aria Step, Champagne

Example 2 ▶

The clean lines of Bonneville stone and Dorset brick are echoed in Oaks' Nueva® Collection of landscape products, with colours that reflect a common theme.

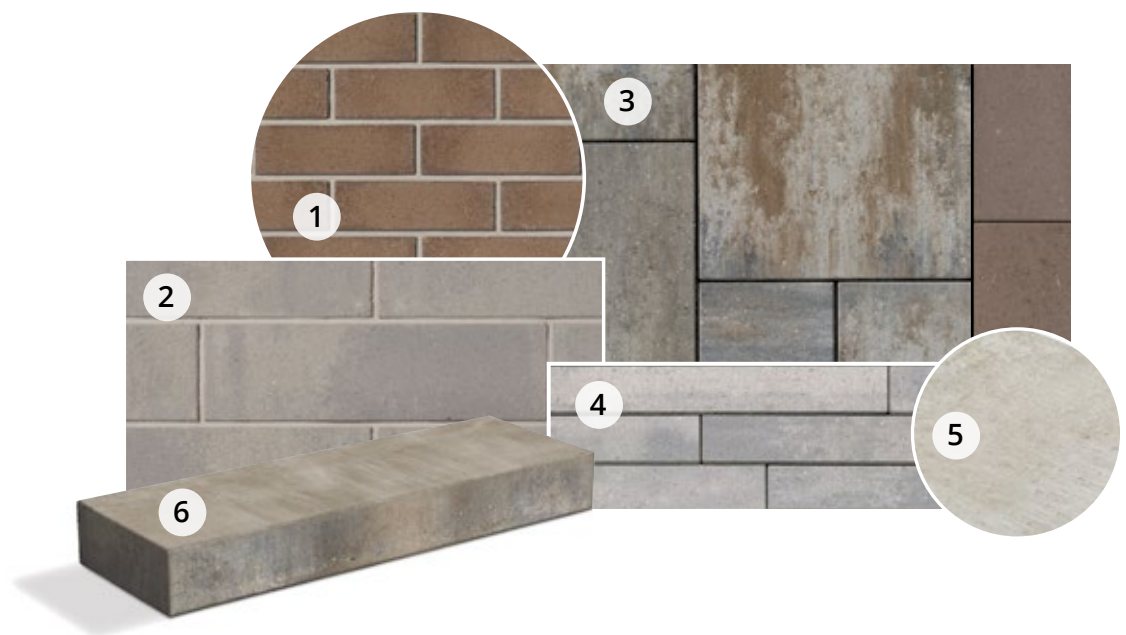

- 1) Brick:** Dorset, Ashland
- 2) Stone:** Bonneville, Cloudburst
- 3) Paver:** Ridgefield Smooth, Champagne with Onyx border
- 4) Wall:** Modan, Cloudburst
- 5) Coping:** Oasis, Onyx
- 6) Step:** Nueva® Step, Onyx

Example 3 ▶

The modular shapes, straight edges and smooth finishes of Oaks Landscape Products Nueva® Collection harmonize well with the clean lines and less pronounced textures of Contemporary Series brick and Bonneville Stone.

- 1) Brick:** Contemporary Series, Regency Brown
- 2) Stone:** Bonneville, Cloudburst
- 3) Paver:** Nueva® Paver, Champagne with Umber border
- 4) Wall:** Nueva®75 Wall, Cloudburst
- 5) Coping:** Cassina, Dover
- 6) Step:** Nueva® Step, Champagne

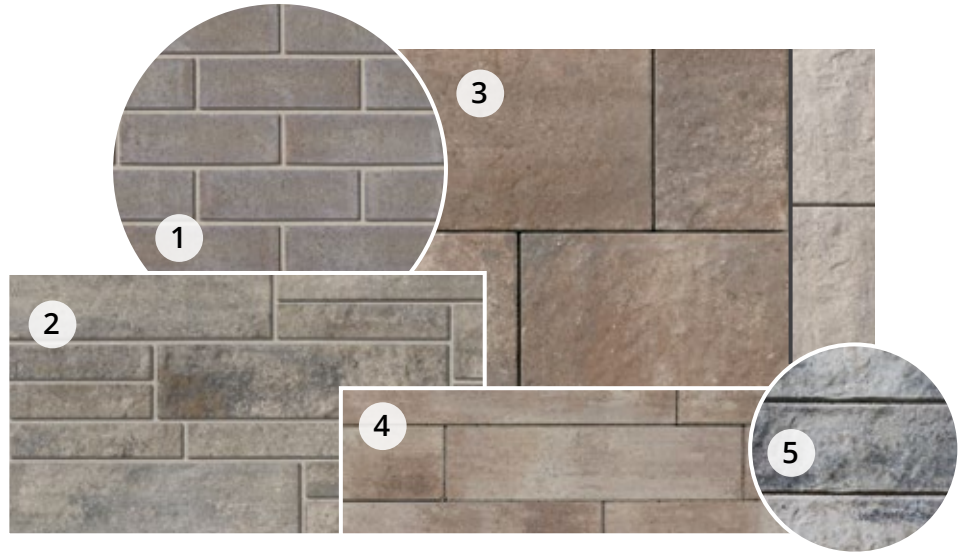

COORDINATING MASONRY WITH

Oaks Landscape Products

Example 4 ▶

Subtly-blended brick and stone colours can be paired with more diversely blended Oaks Landscape Products to pick up on a common colour highlight, and bring out their best qualities.

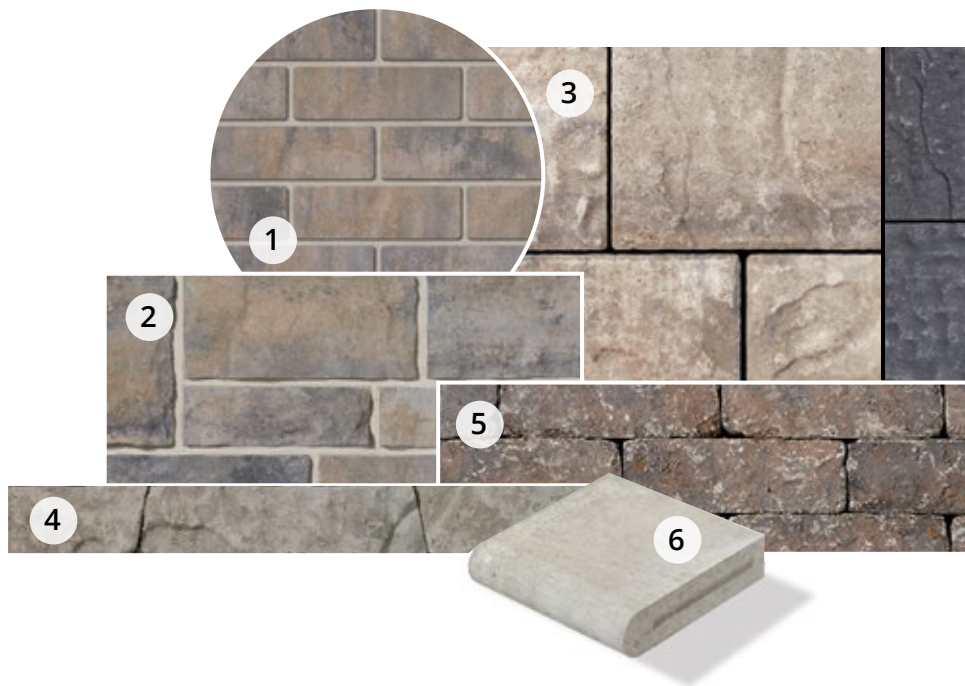

- 1) **Brick:** Contemporary Series, Royal Gray
- 2) **Stone:** Granada, Ashland
- 3) **Paver:** Rialto 80mm, Mackinaw with Champagne border
- 4) **Wall:** Modan, Milano
- 5) **Step:** Aria Step, Marble Grey

Example 5 ▶

Vivace stone's slate texture harmonizes beautifully with the natural textures and colours of Oaks' Rialto or Legacy Collection of products.

- 1) **Brick:** Vivace (PRP), Tweed
- 2) **Stone:** Vivace, Tweed
- 3) **Paver:** Villanova, Champagne with Onyx border
- 4) **Curb:** Fronterra Curb, Chartan
- 5) **Wall:** Castlerok 2, Chartan
- 6) **Coping:** Cassina, Dover

Example 6 ▶

An on-trend design can be accomplished by pairing our beautifully natural textures and neutral colour palette that is available across our masonry and landscape product lines.

- 1) Brick:** Legacy Series, Crystal Gray
- 2) Stone:** Artiste 2, Marble Gray
- 3) Paver:** Rialto 80mm, Marble Grey with Onyx border
- 4) Curb:** Fronterra Curb, Greystone
- 5) Wall:** Ortana, Mountain
- 6) Coping:** Ortana, Onyx
- 7) Step:** Aria Step, Marble Grey
