ACCESSORIES

ADHESIVE 1 GALLON - 4 GALLON

Commercial-grade adhesive ideal for indoor and outdoor landscaping synthetic turf installations. It has excellent all-weather resistance with superior bond strength and can be used for full spread and seaming installations.

ADHESIVE DISPENSER DISPOSABLE

Provides easy and even dispensing of seaming adhesive - glue width of 12cm. Can be combined with AGL Adhesive Teflon Gun. This adhesive dispenser is disposable.

TEFLON GUN PREMIUM

This accessory makes using the AGL Adhesive even easier. This gun is fully Teflon-coated, has an excellent flow rate and is very easy to maintain and keep clean.

SPRAY ADHESIVE 500 ML

Rapid-curing polyurethane foam adhesive that can be applied by gun or by straw. AGL Spray Adhesive sticks to virtually all clean surfaces and can be used in both wet and dry conditions. Starts to grab within approximately 20 minutes.

SPRAY ADHESIVE CLEANER 500 ML

Excellent for cleaning up adhesive and adhesive guns. Should be used in a well-ventilated area, preferably outside.

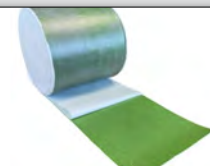

SEAMING TAPE 12" WIDE

Spun-bonded, waterproof, non-woven fabric tape designed for seaming synthetic turf. Provides superior tensile strength and tear resistance. For synthetic turf applications, including residential and commercial landscaping, playgrounds, putting greens and sports fields.

PEEL & STICK SEAMING TAPE 7.8" WIDE X 32.75'

Very strong and easy to apply, single-sided adhesive joining tape for joining 2 or more pieces of artificial grass.

FOAM PAD 3/4" - 1-1/2" - 2" - 3"

Designed for use in both residential and commercial/ playground applications, it is an environmentally friendly, attenuation and drainage pad ideal for a wide variety of turf applications. The impact absorbing padding provides a soft cushioning layer beneath the turf for years of reliable safety.

GEO FABRIC 15' WIDE

Non-woven fabric allows high water flow and provides diminutional stability. It will not rot or mildew and helps prevent soil erosion.

ACCESSORIES

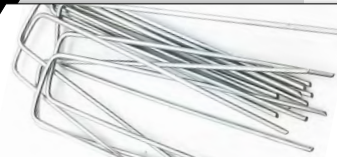

8" NYLON SPIKES 125 PER BOX

Can be used for many landscape anchoring applications. The nylon spiral spikes are very durable for both residential and commercial anchoring applications. Suitable for use with all soil types. Will not rust or corrode.

6" STAPLES 1000 PER BOX

Hold your geotextiles, geogrid and erosion control products in place. Staples feature pointed tips and convenient packaging. Also used in artificial turf applications.

GARDEN EDGE TRIM 7'-9" LONG

Permanent and invisible barrier between artificial turf and other landscape materials. Straight and curved applications - for use with spikes, staples or stakes. Low-profile product height of 1-3/16"

ALUMINUM EDGE TRIM LOW PROFILE - 1" H X 2" W X 8' L

Specifically designed to permanently keep natural stone or manufactured pavers/slabs in place. It is engineered to offer a durable edge for high traffic areas.

GEOGRID 15' WIDE

Our geogrid is composed of high-molecular weight, high-tenacity multi-filament polyester yarns that are woven into a stable network placed under tension and coated with PVC.

SILICA SAND INFILL 50 LB. BAGS

This is a white sand used as the infill for artificial grass putting greens, to create realistic and true golf performance.

GOLF KIT CUP, POLE, FLAG & CAP

Standard golf putting green set includes a plastic base, plastic cup, plastic flag pole, and a flag. The plastic cup will ensure that it will not deteriorate or rust over time. Various flag colours available.

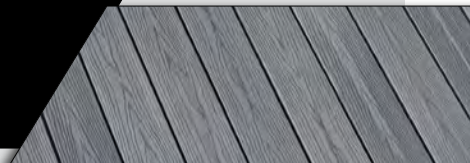

RECYCLED RUBBER MULCH BLACK SHREDDED OR NUGGET - 40 LB. BAG or 2000 LB. SUPER SAC

100% recycled rubber mulch is cleaner and safer for landscaping, gardens, pathways, and playgrounds than sand, gravel, or wood mulch. Virtually maintenance-free, and will not fade, compress, or rot even after years of exposure to the elements. Eliminate annual mulching.

COMPOSITE 2" X 2" X 8' - 2" X 4" X 8' - 4" X 4" X 10' - INQUIRE ABOUT COLOUR OPTIONS

Made from 100% recycled materials. Unlimited uses including decks, docks, parks (benches, adirondack chairs, picnic tables, planters, trash receptacles), playgrounds, fencing, commercial applications, construction, concrete forming, marine, bleachers, boardwalks and more.
