**BEST WAY
STONE®**

HARDSCAPE
PRODUCTS

OVER 60 YEARS OF THE
BEST PRODUCTS BUILT
USING THE BEST PRACTICES.
THAT'S THE BEST WAY.

TO OUR VALUED CUSTOMERS

Since 1965, Best Way Stone® has proudly stood as an independently owned and operated business built on a foundation of craftsmanship, quality and trust. For more than six decades, we have dedicated ourselves to delivering products that stand the test of time through style, durability and the relationships we've formed along the way.

At Best Way Stone, we believe that every product we produce is a commitment to you and our community.

Being one of the few independently owned precast concrete manufacturers in the industry is more than just a distinction – it's what empowers us to deliver unparalleled service. Our independence ensures we remain flexible and responsive to the evolving needs of our customers, offering innovative solutions without ever compromising on quality.

Whether you're a homeowner transforming your outdoor space or an industry professional seeking reliable, high-performance products to exceed client expectations, we're here to help bring your vision to life. Our pavers are backed by our lifetime guarantee, a testament to our unwavering commitment to you.

As we've grown, so too has our dedication to continuous improvement and exceptional service. Each member of our team is united by a shared mission: to provide you with an outstanding experience, built on trust, innovation, and craftsmanship.

Thank you for choosing Best Way Stone. We're here to support you – today, tomorrow, and for many years to come.

OUR TRUSTED NETWORK

Partnering with the Right Skilled Contractor

A well-crafted outdoor space begins with a skilled professional. Hiring a qualified hardscaper ensures that your project is executed smoothly and meets the highest standards. When selecting a contractor, consider these important tips:

Ask for references and examples of past work: Review their portfolio to see if their style aligns with your vision.

Verify insurance, licensing, and warranty: Ensure they offer solid protection and guarantees for peace of mind.

Insist on industry-standard installation: Professional contractors should aim to adhere to best practices and guidelines recognized by the industry.

ProElite

Consider choosing a ProElite Contractor, recognized by Best Way Stone for their commitment to quality craftsmanship. These select professionals work with Best Way Stone products and have a proven track record of delivering exceptional results. You can find our ProElite contractors at bestwaystone.com/find-a-hardscaper.

Professional hardscape contractors will understand the industry standards for installing hardscape products. You can download a copy of these guidelines by visiting masonryandhardscapes.org.

Our Trusted Dealer Network

Join the Best Way Stone family by connecting with one of our trusted dealers, conveniently located across Ontario, Quebec, the Maritimes, Michigan and Ohio. Our dealers don't just offer products, they bring your vision to life by recommending the perfect solutions, tailored to your unique design and style preferences. Whether you're planning a backyard oasis or a commercial project, our expert dealer network is here to guide you every step of the way.

Visit our website to find a dealer near you:
bestwaystone.com/dealers

IT STARTS WITH A GOOD FOUNDATION

Best Way Stone's products are designed to be resistant to the elements, meeting or exceeding CSA and ASTM industry standards.

We select the best performing ingredients for our products, and partner with suppliers who value quality and service first – just like us.

Our production team carefully inspects each unit of product before it leaves our factory. That commitment to quality is backed by our transferable lifetime guarantee on the structural integrity of our pavers. You can learn more about our transferable lifetime guarantee on our website: bestwaystone.com/warranty.

Manufacturing Leads Design

Hardscaping solutions should be designed to last. Our philosophy is that manufacturing processes should always influence product design.

Thoughtful Innovation

We've built production facilities and equipped them with manufacturing technology for our own proprietary processes that are engineered specifically to ensure our products are well-planned, well-designed and well-made.

With two state-of-the-art manufacturing facilities, as well as dealers to support you across Ontario, Quebec, the Maritimes, Michigan and Ohio, we're completely independent and able to both hear and respond to your needs.

THE PURSUIT OF BETTER

OUR TECHNOLOGIES

DesignLoc[®] technology is a two-stage manufacturing process that creates a refined surface while reinforcing a stronger, coarser base. This process enhances durability and reduces the potential for colour fading, ensuring a long-lasting, high-quality finish.

ChromaTec[™] is a factory-applied protective surface enhancer that creates a barrier against stains from external elements. This coating not only helps to resist staining but also enhances the vibrancy and colour longevity of the product.

NanoBlast[™] is a fine shot-blasting process that exposes specially selected aggregates on the product's surface. Combined with a brushed surface treatment, NanoBlast[™] creates a striking textural contrast while delivering a more slip-resistant and comfortable finish.

EXPLORE BEST WAY STONE'S SERIES OF PRODUCTS THAT PROVIDE THEIR OWN UNIQUE ADVANTAGES TO YOUR SPACE.

Classic Series

The Classic Series represents the foundation of timeless design. These products focus on simplicity, durability and functionality. Perfect for budget-conscious projects, the Classic Series delivers reliable performance without unnecessary embellishments – ideal for creating simple clean spaces.

Signature Series

The Signature Series elevates design with superior quality and refined finishes, thanks to Best Way Stone's innovative DesignLoc[®] technology. These products combine enhanced durability with style, perfectly balancing aesthetics and functionality. Whether you're designing a residential oasis or a commercial space, the Signature Series delivers exceptional detailed results that stand out without compromising practicality.

Premiere Series

Best Way Stone's Premiere Series sets the standard for luxury and innovation. Utilizing advanced technologies like NanoBlast[™] and ChromaTec[™], this features high-end materials and cutting-edge manufacturing techniques. These premium products deliver unparalleled aesthetics and enhanced performance. Designed for those who seek to create truly remarkable spaces, the Premiere Series is where innovation meets elegance.

GEOCERAMICA[®]

Porcelain + Paver

Experience the beauty of porcelain combined with the strength and reliability of concrete. Now being locally manufactured by Best Way Stone[®], this leading European innovation in paver technology brings unmatched durability and style to outdoor spaces.

With almost a decade of research, rigorous testing, and more than 90 million square feet successfully installed, GeoCeramica[®] unlocks endless design possibilities for patios, walkways, pool decks, terraces, and more.

THE BEST OF

BOTH WORLDS

- 1 10MM PORCELAIN TILE
- 2 AQUAFERM® BONDING LAYER
- 3 STABIKORN® DRAINING SUBBASE
- 4 INTEGRATED 3MM SPACER BARS

INNOVATION AND PERFORMANCE

Integrated Spacer Bars

GeoCeramica® is designed for efficient installation using standard concrete paving stone and slab installation methods. Built-in spacer bars ensure precise alignment and uniform joint spacing across the entire project.

Advanced Drainage Performance

The innovative Stabikorn® base layer features an open-structured concrete design, minimizing water retention and preventing excessive moisture buildup. This allows for independent expansion and contraction between the porcelain tile and its base, enhancing durability.

Permanent Aquaferm® Bonding

Developed through years of research, the proprietary Aquaferm® adhesive creates a lasting bond between the porcelain surface and the Stabikorn® base, ensuring a secure and reliable installation for the long term.

AVAILABLE IN:

24 x 24

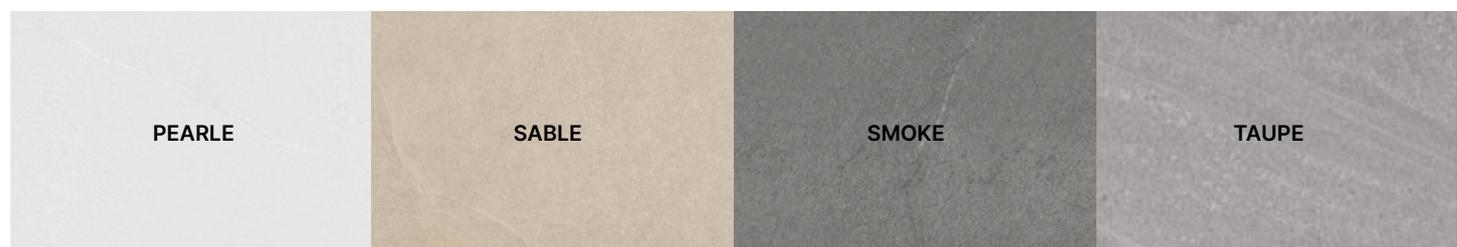

23.6" x 23.6" x 1.6"

600mm x 600mm x 40mm

TAUPE

ADVANTAGES

Effortless Installation

Integrated spacer bars ensure quick and precise placement, simplifying the installation process.

Versatile Applications

Ideal for residential or commercial walkways, patios, pool decks and terrace installations, GeoCeramica® offers a solution for various outdoor spaces.

Easy Maintenance

GeoCeramica®'s high-density, low-absorption porcelain surface resists stains from wine, oil, grease, and more, making cleanup effortless.

Enhanced Slip Resistance

Designed for safety, the outdoor-rated surface provides enhanced slip resistance, making it perfect for use in pedestrian applications.

No Efflorescence

Unlike some traditional concrete products, GeoCeramica® will never develop efflorescence, ensuring a clean and polished look over time.

Fade-Resistant Colours

GeoCeramica® maintains its vibrant colours and aesthetic appeal for years, even under prolonged sun exposure.

Stylish & Trend-Driven

Designed to reflect modern hardscaping trends, GeoCeramica® offers colours and styles that complement contemporary outdoor designs.

SANDSTONE TAUPE COLOUR

THE FOUR ELEMENTS OF A CURATED LANDSCAPE

Today's outdoor spaces are designed for living, working and playing, blending form and function to enhance the quality of life. Whether you're embarking on a complete outdoor transformation or simply adding a new feature, selecting the right products is crucial. At Best Way Stone, we've curated a product portfolio that brings together flexibility, style, and performance to help you achieve your vision – no matter the budget or timeline. Our approach ensures that every element works seamlessly together, making the design process both inspiring and manageable.

Here are the four key elements to consider when creating your ideal landscape:

FORM

Form is the backbone of your design, defining the overall look and feel.

Contrast shapes and textures to establish a more rustic or natural topography, or embrace clean lines for a modern appeal. Our versatile product range lets you create distinctive spaces that resonate with your unique style.

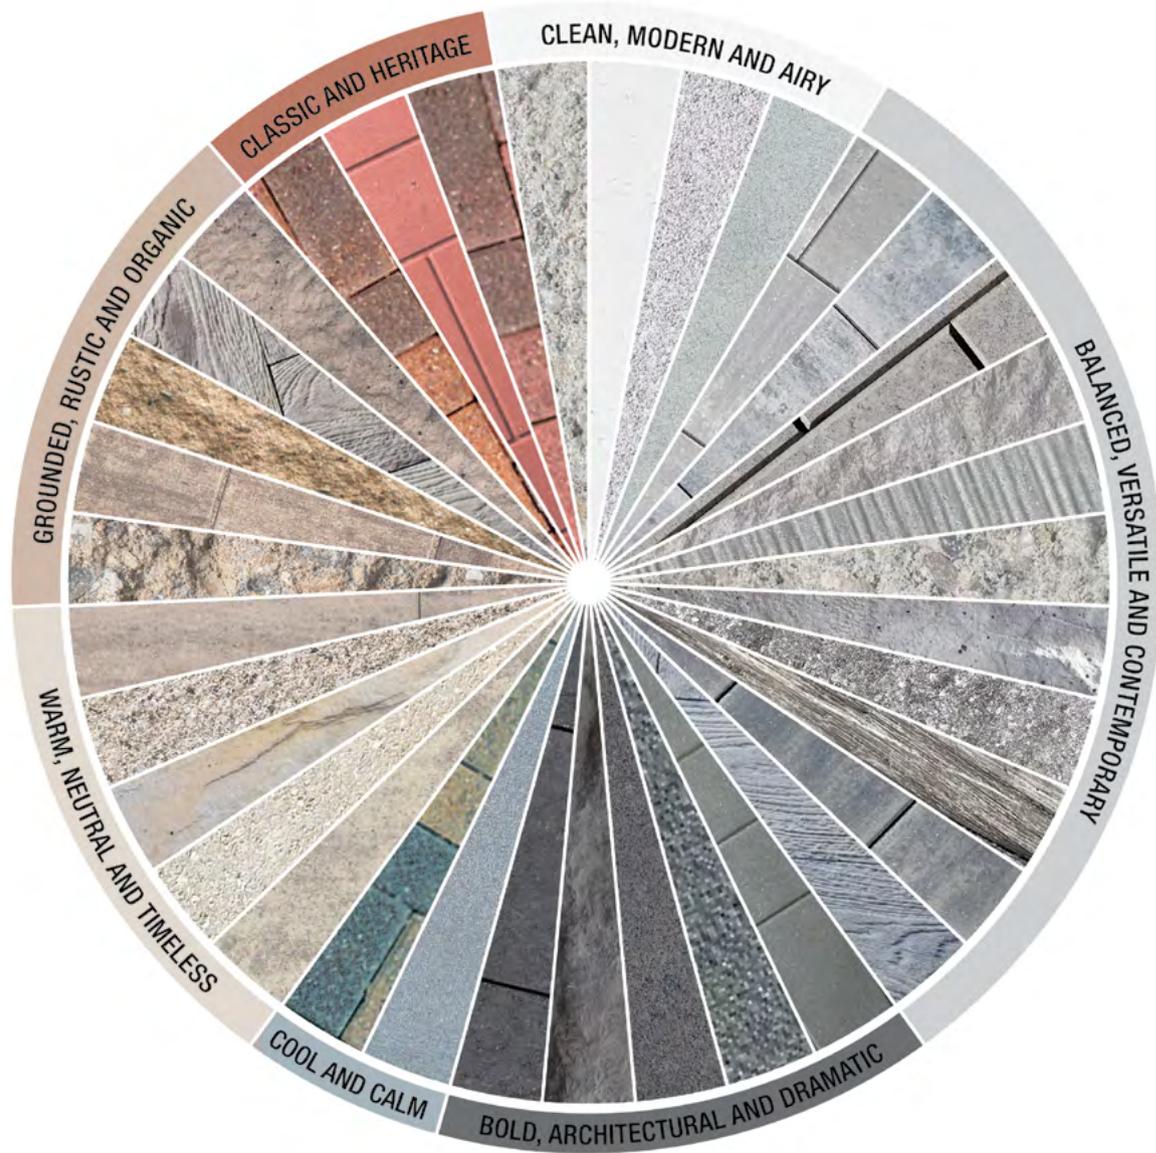

SCALE

Scale is essential to drawing attention and guiding the flow of your landscape. By mixing various sizes of pavers or slabs, you can highlight focal points and create zones of interest. Whether it's a spacious patio or an intimate garden path, scale helps achieve balance and harmony in your design.

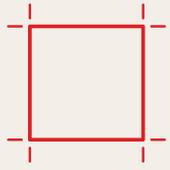

TEXTURE

Texture brings your landscape to life adding depth and character. With a wide array of surface finishes to choose from, you can create visual interest by combining different product textures. From smooth and sleek to rugged and tactile, texture lets you make a bold statement while maintaining cohesion across your space.

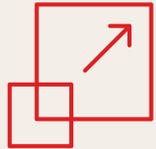

COLOUR

Colour sets the mood and influences how your outdoor environment is perceived. Lighter tones can make an area feel open and expansive, while darker shades offer coziness and warmth. By thoughtfully mixing colours, you can infuse your space with personality, highlighting key features and creating inviting atmospheres.

FORM

SCALE

TEXTURE

COLOUR

Together, these four elements empower you to craft a landscape that's not only beautiful but also uniquely yours. At Best Way Stone, we've made it easier than ever to blend these principles into your design, ensuring that your outdoor space is a perfect reflection of your vision.

DESIGNER TOOLBOX

You can add some contrast and design play to your landscape by mixing and matching our product line. Choose from smooth, soft, textured or cobblestone surfaces, light and dark colour blends, small or large slabs and pavers.

HARDSCAPING ACCESSORIES

Best Way Stone has curated a collection of accessories to help you finish your outdoor space. This series consists of only the products we know and trust in our landscape designs, so you can trust them in yours too.

JOINT SAND

Evolution Pro Plus 4 polymeric sand is a professional quality product made from specially screened sand and the latest binders high concentration technology. Evolution Pro Plus 4 is a high performance polymeric sand, used in the most demanding projects, for which its unique formulation offers a very fast initial setting, increased resistance to humidity and unrivalled durability.

Available in Beige, Grey and Black

CARE & CONSIDERATIONS

Setting a Base

The quality of work put into establishing a solid foundation is vital to the overall performance of your landscape design.

When properly constructed, a solid base foundation helps prevent paver settling, shifting, and water accumulation. Use of edge restraints and jointing sand is recommended as the best practice by the Concrete Masonry and Hardscapes Association (CMHA).

When choosing and installing jointing sand, please ensure to follow the directions given by the manufacturer.

Colour Distribution

When installing precast concrete products, we recommend you select a mix of materials from several different bundles to ensure a balanced distribution of surface colour textures and colour mixtures.

Always verify colours and products chosen for your concrete landscape project with your contractor or landscape designer prior to installation. Physical or printed colour samples are only representations of the chosen product. If you notice a significant discrepancy, notify us immediately before continuing with your project. Full installation is understood as your acceptance of the product's condition.

Concrete Care

Maintaining the surface of your concrete pavers is essential to their aesthetic. Sealing your concrete pavers can enhance the colour, but it's optional as our pavers are just as durable with or without the addition of sealants. If you plan on sealing your concrete products, always follow the manufacturer's instructions for proper application.

Unfortunately, even materials as durable as concrete can scratch, chip or stain if handled incorrectly. When compacting our pavers, ensure that a rubber membrane is added to protect textured surfaces from potential damage. We recommend the use of a roller tamper when compacting slabs. Use a rubber blade when removing snow from the surface of our pavers to prevent surface scratching and damage. Best Way Stone is not responsible for the damage left by the misuse of compaction or snow removal equipment.

Efflorescence

Efflorescence is a white, powdery substance that can appear on the surface of concrete and it's a naturally occurring process. Efflorescence does not affect the structural integrity or strength of the product and will weather off over time – although special cleaners can be used to speed up its removal.

Choosing a Contractor

Although not required, hiring a qualified contractor makes installing stone a much more efficient and less stressful experience. When hiring a qualified professional we recommend they follow industry standard guidelines.

When hiring a contractor, we recommend collecting project references and samples of previous work. Make sure they offer a comprehensive warranty, and have all the required insurance and licenses. Any contractor will understand the industry standards for installing stone – you can download a copy to these guidelines from the Concrete Masonry & Hardscapes Association.

For more details on industry best practices we recommend you visit [Concrete Masonry and Hardscapes Association \(CMHA\)](http://ConcreteMasonryandHardscapesAssociation.com) for the most up to date information.
