UNILOCK[®]

2026

A Canadian Success Story for more than 50 years

In 1972, when my Dad first brought the concept of segmental paving to North America and began manufacturing UNI-Stones in Barrie, Ontario, he had no idea that he was on the verge of kickstarting an entire industry. Back then, his dream was to build a business that met a market need and created a good living for everyone involved.

The concept caught on quickly and by 1974, our company was installing UNI-Stone® pavers for the City of Toronto. In fact, UNI-Stone pavers served the Yorkville Firehall for more than 40 years, replaced with Unilock II Campo® recently as part of a broader makeover. Our Ontario operations steadily grew to meet exploding demand, with new machines, new plants and more employees.

In 1985, my Dad opened our first U.S. manufacturing operation in Buffalo, and proved that the Unilock concept could fly in the United States as well. This led to a flurry of expansion to Chicago, Detroit, New York, Ohio and Boston. Today, 80% of our revenue comes from the U.S. and yet we remain a proudly Canadian, family-owned company.

From our humble UNI-Stone beginnings, through to every major technical or design innovation since then, Unilock has been on the leading edge. In doing so, we have relentlessly sought to improve the quality of life for everyday families like yours and the skilled craftspeople who design and build outdoor living spaces, creating an eco-system centered on people and relationships. Impractical design and marketing doublespeak are not in our wheelhouse. Instead, we are squarely focused on you, our customer, and the way our products can transform the life you choose to build upon them.

Is it a new backyard retreat you're dreaming of? Or a stunning driveway and front entrance? No project is too big or too small to consider our endless canvas of paver and wall materials. And when you're ready, we'll be here to help turn your dream into reality with project planning tools and contractors you can trust to do the job right. It's the Canadian way; Unilock is here to help.

Sincerely,

~ Owner

TRADITIONAL PAVER

Small Upgrade, Big Difference

ENDURACOLOR™

Traditional pavers can appear to fade over time as the surface wears to reveal large, lighter-colored structural aggregates.

EnduraColor products are different. Concentrated color and wear-resistant materials are used to produce a refined, color-dense surface that lasts.

ELEGANCE®

From the timeworn look of European cobblestones, to the classic luxury of riven slabs, our Elegance collection offers styles you can't get anywhere else. Deep, rich colors and unique textures combine to deliver timeless beauty that is built to last.

- + Reduced dirt absorption +
- + Enhanced wear resistance +

Save time and money over after-market sealing with factory sealed EasyClean

Look for the seal on select products.

Your family will enjoy a well-installed project for decades.

Choose the Products you Love

Whether your project is big or small, the investment is significant. Most of this cost, up to 80%, comes from installation and lies below the surface in excavation, base materials, equipment and labor. So when it comes to the pavers and walls everyone will see, don't compromise.

Don't Settle for Less

Unilock products offer styles, textures and features you won't find anywhere else. Since materials make up only about 20% of your total project cost, don't settle for second-best. Invest in the look you love, with high quality Unilock products.

*Scan for full warranty details and to register
for your Transferable Lifetime Guarantee.*

Dream

Umbriano® with Town Hall® accents

Imagine an outdoor space where the inspired use of patterns, textures and shapes not only creates design-envy, but elevates your world in the most beautifully functional way.

Driveways

Nothing speaks to pride of ownership more, than a Unilock paver driveway. Enhance the curb appeal of your home with products designed to stand the test of time.

COURTSTONE®

The ultimate driveway product, Courtstone, is part of our premium, Elegance collection. Modelled after timeworn European cobblestones, this look will stand the test of time.

TRIBECA COBBLE™

Granite, marble and quartz particles on the surface of Tribeca Cobble offer everlasting beauty, while dimensional accuracy gives it a clear advantage over imported granite cobblestones.

Design Considerations

Ensure your driveway is wide enough for guests to make their way around parked cars.

Driveway Design Tips

Town Hall pavers in a herringbone pattern deliver a warm welcome with timeless appeal.

Pavers: Town Hall* (3 Color Blend) and Town Hall (Basalt) accent

Project Video

This home is designed to impress with the ultimate driveway paver Courtstone, in combination with Richcliff. It's a timeless look with unsurpassed durability.

Driveway: Courtstone®
(Basalt and Pebble Taupe -
Blended on Site) with Richcliff®
(Pebble Taupe) accents

Entrance: Richcliff
(Pebble Taupe)

Project
Video

Striking borders, patterns and circular designs come to life with the hand-cut, granite look of Nordic Cobble.

Nordic Cobble™ - Granite Fusion and Opal Blend (Blended on Site) with Dark Charcoal circle accents and maple leaf icon

Entrances

Welcome family and friends to your home with smartly designed front entrances and walkways featuring Unilock pavers and walls.

U-Cara

U-CARA® MULTI-FACE WALL SYSTEM

Wisely placed vertical features can lend a cozy feel and provide a base for layered softscaping. U-Cara is a highly versatile wall system with a variety of options that coordinate beautifully with Unilock paver colors and finishes.

This front entrance project combines a single color of Umbriano in a variety of shapes and laying patterns, with dark Copthorne accent bands.

Umbriano

COPTHORNE®

Inspired by the enduring charm of European street pavers, Copthorne offers classic beauty.

Lush hydrangea fill
Rivercrest planter boxes
to frame the entrance of
this stately home.

Pavers: Copthorne®
(Basalt) with Brussels
Block® (Sandstone) accent

Garden Wall and Steps:
Rivercrest® Wall (Buff) with
Ledgestone™ Coping (Buff)

Pool Decks

It's the best part of your summer lifestyle, where kids congregate and sun-soaked days end with relaxed evenings. Make a splash around your pool, with Unilock pavers and walls.

Beacon Hill Slab

BEACON HILL™

Our wildly popular Beacon Hill Flagstone paver is also available in a smooth, modern texture. This large format slab strikes a relaxed, contemporary vibe.

Pool Deck
Design Tips

UMBRIANO® COLLECTION

This collection covers all the bases, with U-Cara® wall panels for retaining walls and other vertical features, matching coping and a range of paver sizes to choose from.

Sleek, granite-like Umbriano pavers on this ultra-modern pool deck are cool and comfortable underfoot on hot, sunny days. A soothing U-Cara water feature adds to the ambiance.

Pavers: Umbriano® with Umbriano coping (Grenada White)

Water Feature and Garden Wall: U-Cara® Umbriano with Umbriano coping (Grenada White)

Project Video

A monochromatic color palette using Umbriano pavers and walls creates a tranquil vibe in this backyard oasis.

Pavers: Umbriano® (Grenada White) with Natural Stone coping

Vertical Feature: U-Cara® Umbriano Finish (Grenada White) with Natural Stone coping

Outdoor Living

Explore the possibilities to expand your home's square footage by bringing the inside out, with outdoor kitchens, dining areas and living rooms.

Umbriano® pavers with U-Cara® Grill Island

Beacon Hill® Smooth pavers with Brussels Dimensional Stone® verticals

Rivercrest® Wall Grill Island with Richcliff® pavers

Design Considerations

If entertaining large groups is your goal, be sure to plan ample space for comfortable seating.

Outdoor Kitchen
Design Tips

Pavers: Arcana™ (Modena) with Mattoni™ (Dark Charcoal) accent rug

Fire Feature, Garden Walls and Grill Island: U-Cara® Smooth (Dark Charcoal) with Endura Coping (Granite Fusion) and Custom Granite Counter Top

Project
Video

This sophisticated modern farmhouse features an Arcana patio and spectacular see-through U-Cara fire feature.

Contrasting Umbriano squares and hexagons with Mattoni rectangles help define the outdoor kitchen, dining and lounge areas in this modestly sized project.

Pavers: Umbriano® (Winter Marvel) with Mattoni™ (Dark Charcoal) banding and Umbriano Hex (Winter Marvel) accent areas

Grill Island: U-Cara® Smooth (Dark Charcoal)

Urban slabs and
U-Cara Subway panels
pack a punch in this
small backyard.

U-CARA®

Our new U-Cara Subway panel features a beveled frame and raised inner face that creates visual dimension through light and shadow.

Project
Video

Pavers: Urban™ (Indiana Buff) with Copthorne® (Burnt Clay) on raised patio
Vertical Features: U-Cara® Subway (Indiana Buff) with Endura™ Coping (Indiana Buff)

Retaining Walls

Make the most out of your sloped yard by creating level areas and more useable square footage with a stylish retaining wall.

SienaStone® Smooth

Design Considerations

Carve into a hill to create a cozy nook, or locate your living space at the top of a slope with an elevated patio.

U-Cara®

A SienaStone Smooth retaining wall helped these homeowners reclaim usable space in their steeply sloped corner property without compromising style.

Project
Video

SienaStone™ Smooth (Granite Fusion)

Modern

Whether it's a sleek, monochromatic look, or pixelated geometrics, Unilock products are your design playground.

SORENO™

Surefooted and elegant, a fine stone structure and thermal texture highlights the natural character in every slab of Soreno.

ARCANA™

These large format slabs have a silky, matte texture and speckled color palette, that is on-trend for patios, pool surrounds, roof decks and more.

Pavers: Soreno™ (Dark Charcoal) with Mattoni™ (Granite Fusion) paver rug and accents

Vertical Features: U-Cara® Smooth (Granite Fusion) with Umbriano® (Midnight Sky) coping

Project
Video

This sleek lakeside patio features an L-shaped kitchen and cozy fire table constructed using the U-Cara Multi-Face Wall System. It's the perfect gathering place for family and friends.

Timeless

Some properties call for the classic beauty of a timeworn patina. These are a few of our most popular products, to complement historic architecture or provide design-forward contrast to modern structures.

TOWN HALL®

Modeled after iconic North American clay pavers, Town Hall brings historic charm to traditional and permeable landscapes. Deep, rich colors and a range of authentic textures combine to deliver classic beauty and exceptional strength.

BRUSSELS BLOCK®

This tumbled paver transformed the industry when it was first introduced in 1993. While competitors have sought to replicate it, our mechanical tumbling process still delivers the most natural timeworn look.

RIVERCREST® WALL

Just because a retaining wall has an important job to do, doesn't mean it can't be beautiful! Rivercrest Wall has all the charm of a decades-old natural stone.

RICHCLIFF®

Inspired by the texture of natural cut flagstone, Richcliff offers superior durability and timeless appeal.

The strikingly detailed riven texture of Richcliff, perfectly complements this Craftsman style home.

Richcliff® (Dawn Mist and Pebble Taupe) with Courtstone® (Basalt) accent and Ledgestone™ (Buff) step treads

Elliott Landscape Services

BEFORE

"The end result exceeds every expectation—it's beautiful, comfortable, and filled with laughter every time our grandkids are here."

Marsha

Before & After

The Power of Transformation

For more than four decades, Marsha and Robert have lovingly invested in their Mount Vernon, Ohio home—a cherished family treasure that has witnessed countless milestones. While the house itself exuded warmth and character, for years, the backyard was a blank canvas of grass waiting for purpose.

With their growing family and a house full of grandkids, they dreamed of transforming the space into a place where memories could be made, and laughter could echo for generations. Today, their vision has come to life beautifully.

The new backyard patio, crafted with elegant Arcana™ pavers is an inviting retreat featuring an outdoor kitchen, dining and sitting areas, and a tranquil water fountain. The outdoor kitchen and surrounding walls, built in Lineo® Dimensional Stone, bring a clean, modern style that complements the natural landscape.

What was once a patch of grass has become the heart of family life—a welcoming outdoor living space where Marsha and Robert's love of home and family continues to flourish.

BCL Landscaping

Feature Project

UNILOCK
AWARDS OF
EXCELLENCE

The owners of this Nebraska property wanted to transform their basic concrete patio and pool deck into a showstopping outdoor space worthy of their view of the Elkhorn Valley. Brady Corbett, of BCL Landscaping was up for the challenge.

He began with a 3D design, using Unilock Uvision® software. This tool allowed him to experiment with a number of arrangements of a pickleball court, putting green, and artificial turf, in addition to an expansive multilevel outdoor living patio and pool surround.

Together with the homeowners, they explored a number of different paver shapes and wall options in a variety of laying patterns to help define cooking, dining and lounge areas. The result is a stunning backyard that strikes a perfect balance between recreation and relaxation.

The Choice of **Design Professionals**

Architects and engineers know that Unilock products can be relied upon to bring designs to life and deliver long term durability in demanding environments. That's why you'll find Unilock used in world class commercial spaces across North America. Now, you can bring some of this same trusted quality home.

Fire pits and Fire Features

Imagine flames crackling on a cool night, curling up under the stars with friends and family, and sipping a warm cup of hot chocolate. Soak up that sense of bliss from your backyard with a Unilock fire pit!

Speak to your contractor about designing a custom fire feature using Unilock wall products.

Design
Tips

U-Cara®

HEAT DAMAGE PREVENTION

To ensure a long-lasting fire feature, direct exposure to extreme heat from an open flame should be avoided. Always construct fire features with a protective heat barrier such as a metal insert, refractory blocks or approved firebrick to prevent potential heat damage.

NOTE: Large fires and extreme heat are detrimental to concrete.

RIVERCREST® FIRE PIT

Stacked flagstone has been used for centuries for small garden walls and pillars. With Rivercrest Wall, you get the character and flexibility of natural stone combined with the durability and affordability of concrete. **Insert and accessories sold separately.**

Learn

Nothing ventured, nothing gained! Transform your hardscape ideas into bold, thrilling reality with the right help, knowledge and preparation. Unilock has the experts, the plans and the tools you need to succeed!

Finding the right Contractor

Even the best materials can be spoiled by subpar installation and craftsmanship, which is why choosing the right contractor for the job is the most crucial decision of all for your project. The cheapest quote is rarely the best option, so make sure to ask the right questions.

Download our
Contractor Checklist

Unilock Authorized Contractors are Guaranteed to do the Job Right

We stand behind the workmanship of Unilock Authorized Contractors because they have met our exacting standards for installation methods and business practices.

See the UAC
Workmanship Guarantee

Connect with us online, by phone or in person at one of our offices, and we'll be pleased to connect you with one in your area.

Find a local Unilock Authorized
Contractor in your area

Look Beyond the Surface

Your project's long-term performance relies on the quality of work that is done **below the surface**. The depth of excavation, type of base material and methods of installation are critically important.

Learn about project construction

INTRODUCING High-Quality Fibreglass Pools & Spas

TRANSFORM YOUR OUTDOOR SPACE INTO A RELAXING OASIS

Unilock has expanded its offerings of premium pavers and walls to now include a selection of high-quality, Canadian-made fibreglass pools and spas from Aqua Fibre Innovation Pools and Spas.

Only available from participating contractors.

Do-It-Yourself

Selecting a **Surface**

Unilock Finishes

SMOOTH FINISH

Sometimes, simple is best. A smooth surface suits contemporary styles and is available in a wide variety of shapes for paving and verticals.

FLAGSTONE FINISH

Popular for centuries, a flagstone finish never fails to add warmth to outdoor spaces.

ANTIQUED FINISH

A variety of methods are used to achieve this distressed finish, but in every case, it lends a relaxed, rustic vibe.

TIMEWORN

Our exclusive Elegance line offers the look of centuries-old cobblestone, brick, and natural stone with unsurpassed product durability.

BRUSHED FINISH

Only Unilock offers Il Campo®, a unique surface enhanced with graphically interesting etched lines. This finish has long been a favorite of commercial designers.

UMBRIANO

Umbriano is an exclusive finish only available from Unilock with color and granite particles that are randomly dispersed to achieve a unique mottled surface that is reminiscent of granite.

EXPOSED GRANITE

Granite, Quartz and Marble particles are embedded in the product's surface and then revealed using additional processing methods.

ENHANCED SURFACE

The surface of these products is enhanced using a special process to reveal a variety of distinctive colors and textures.

Save the time, money and hassle of after-market sealing with factory-sealed EasyClean products. **Look for the seal on select products.**

Playing with Pattern

From traditional squares, to modern planks, geometrics and timeworn historic shapes, the choices are many. Beyond the shape of the paver itself, there are a variety of laying patterns to consider, from herringbone to basketweave.

BASKET WEAVE

HERRINGBONE

Borders and Banding

Use a change in paver shape, pattern or color to bring visual depth to the edges of your project, highlight special features or to create definition between different outdoor 'rooms'.

JOINT MATERIAL

Joint material plays an important role between pavers by keeping out weeds and other debris. However, the color you choose can also dramatically impact the look of your project. Your contractor can help you decide what will work best.

Building with U-Cara[®]

Our patented U-Cara Multi-Face Wall System has revolutionized the construction of hardscape verticals. This comprehensive system offers more variety in colors, textures, patterns and project applications than any other wall system on the market today.

U-Cara
Installation Guide

SURETRACK BACKER BLOCKS

SureTrack Backer Blocks are the structural backbone of a U-Cara retaining wall, garden wall, planter box or seat wall project.

WALL MOUNT SYSTEM

Using the U-Cara Wall Mount System, you can attach U-Cara fascia panels to new or existing vertical structures to create a seamless design.

MODULAR SYSTEM

These aluminum frames come in a variety of configurations and can be used alone or in combination with one another to efficiently build grill islands, fire features and pillars.

Building with U-Core®

U-Core is a patented, lightweight geof foam block designed to replace traditional gravel backfill in applications such as steps, raised patios, walkways and more.

U-Core is proudly manufactured
in Ontario. Learn More.

STEPS

U-Core is designed to replace the backfilling, compacting and base leveling that is required in traditional step construction. **The step framework can be constructed in minutes**, while significantly reducing the potential for short or long-term settlement.

RAISED PATIOS

U-Core provides a fast, efficient and easy way to place large volumes of structurally stable fill in a fraction of the time, **reduce loads on foundations soils by 90%**, and eliminate lateral earth pressure on existing structures.

DRIVEWAYS, WALKWAYS & PATIOS

Even where significant fill volumes are not required, such as the base of a walkway or a patio, U-Core can be used to **speed up installation and reduce settlement potential**.

Paving a **greener** way

In 2021, we announced our commitment to becoming a carbon neutral company. With initiatives to minimize our use of fossil fuels, conserve water and replace cement in our products, we're making steady progress towards this goal.

Up to 15%
Reduction in CO₂

Cement-free
face-mix

Efflorescence
Free

Color stays
true longer

Our EcoTerra technology is revolutionizing the industry, offering a more sustainable paving solution with its cement-free face-mix. These pavers offer high compressive strength, low absorption and remarkable colorfastness, while contributing up to a 15% reduction in carbon dioxide emissions.

Permeable Pavements

In recent years, increased storm events and residential flooding have motivated more and more homeowners to install permeable pavers. In addition to decreasing the risk of flooding, permeable pavements offer many additional benefits. When water is redirected into the subsoil, it is naturally filtered and can nourish surrounding plant life. As well, decreased puddling will reduce ice buildup in winter.

Special materials are used in the joints and in the permeable base below, to encourage water to flow through.

At first glance, permeable pavers look similar to traditional pavers. The difference lies in the width of the joint between units, the material used to fill the joints, and the base material on which the pavers are installed.

Wider joints, permeable joint material and an open graded base design all work together to direct water through the surface and into the subsoil below, instead of flowing off the surface and into overburdened storm sewer systems.

While all segmental paving can be permeable to some degree, look for this symbol to identify Unilock products that offer the widest joints for exceptional flow-through
